About me

A motivated, responsible and adaptable computing graduate seeking a position in a computer science and related position who will utilize the professional and technical skills developed through the past study in this field. I have strong drive to see things through to completion. I am junior programmer with proven skill in C#, MERN Stack, Flutter, PHP, HTML, C++, JAVA, Java script and CSS. In my past study, I have been a leader since when I was grade five. This is made me to manage the final graduating project as a leader and which was completed on time.
